NON-IDENTIFIABLE AND AGGREGATED INFORMATION

When you visit the Site, use the Mobile Application or avail yourself to the Services, we or our affiliates and service providers collect and retain certain information that cannot be used to identify you, such as the nature and frequency of your use of Mobile Application and/or visits to the Site, the Site web pages you visit and how long you spend at the Site. We or our affiliates and service providers may use that information or aggregate it with other information to monitor the number of visitors to our Site and/or users of Mobile Application, how users use and interact with our Mobile Application, our Site and Services, and our users' demographics. We use this information to monitor and improve our

Services. We may also use this information to help us describe our Services to current and prospective users, business partners and other third parties.

2. INFORMATION ACCESS, SHARING AND DISCLOSURE

INFORMATION ACCESSED BY FIREFLIES.AI OR ITS SERVICE PROVIDERS

As a general rule, Fireflies.ai's employees and service providers do not monitor, review or listen to your meeting information that is recorded and stored by our Services; however, we list below the limited circumstances in which our employees and service providers will access or review your Meeting Record:

We need to do so to evaluate problems with the quality of the Voice Notes. When our Services detect portions of the Meeting Record that are difficult to transcribe (i.e. convert to written form) into Voice Notes, Fireflies.ai's voice specialists will undertake a limited review of the segment of the Meeting Record that is difficult to transcribe and attempt to transcribe accurately that portion of the Meeting Record into an intelligible Voice Note. In the event that we utilize the services of a third-party service provider to undertake this transcription task, Fireflies.ai will make accessible only the problematic segments of the Meeting Record being transcribed into Voice Notes. In the event, a Meeting Record has multiple problematic segments to be transcribed into Voice Notes, then Fireflies.ai will endeavor to use multiple outside voice specialists and restrict their respective access to a single problematic segment of the Meeting Record being transcribed into a Voice Note so that no single outside voice specialist gains access to much of the Meeting Record or more than one Voice Note thereby severely limiting any outside voice specialist's ability to discern the topic and nature of the meeting information.

We need to do so for other troubleshooting purposes.

We believe our Terms of Use has been violated and confirmation is required or we otherwise have an obligation to review your meeting information as described in our Terms of Use.

We believe it to be necessary to protect the rights, property or personal safety of Fireflies.ai and its users (including to protect against potential spam, malware or other security concerns).

We do so in order to comply with our legal obligations.

INFORMATION PROVIDED TO YOUR MEETING GUESTS

When you engage the Services and invite Fred to a meeting, some of the personally identifiable information you provided to Fireflies.ai and the meeting information will be shared with the other participant(s) in your meeting as follows:

Your status as a user of the Services will be visible to your meeting guests.

Your email address and any profile information that you have provided will be used to identify you as the meeting Host and distributed to the meeting guests.

The Meeting Record will be made accessible to the meeting guests for whom we've received an email address, enabling them to listen to, and conduct searches on, the Meeting Record, subject to Fireflies.ai confirming their participation in the meeting by validating their email.

The Meeting Insights of the meeting and Voice Notes generated from the meeting will be made accessible to meeting guests for whom we've received an email address. Please note that if you're recording a meeting live via the Mobile Application, you should make sure to provide email addresses for all meeting participants and make sure that all participants are aware that the meeting is being recorded.

Your email address or profile information will be used to identify the meeting information that is distributed to your meeting guests, including with respect to the access given to the Meeting Record recording, the Meeting Insights, and the Voice Notes from the meeting.

Any sharing of such information with service providers will maintain your data rights as specified in this Privacy Policy.

Where we believe it is necessary to investigate potential violations of our Terms, to enforce the Terms, or where we believe it is necessary to investigate, prevent or take action

regarding illegal activities, suspected fraud or potential threats against persons, property or the systems on which we operate the Services including sharing data of EU and Swiss individuals in response to lawful requests from public authorities to meet national security and law enforcement requirements.

We will not disclose your Personal Data or meeting information unless we believe such disclosure is required by law or we believe it is necessary to: comply with a legal obligation; act in urgent circumstances to protect the personal safety of users of the Site, the Services, or the public; or protect against legal liability.

We do so in connection with the sale or reorganization of all or part of our business, as permitted by applicable law.

We may send information about Fireflies.ai via email to those whom you invite to meetings to see if they'd like to try Fireflies.ai; unless doing so would be in violation of applicable law. Other than that, Fireflies.ai does not use personal information or meeting information for advertising or marketing purposes.
